Profile

Juan Pablo brings seven years of expertise in advising leading companies in the mining and energy sector, specializing in corporate, environmental, and regulatory matters. He has played a key role in high-impact corporate transactions and financings, as well as in providing strategic legal counsel for companies' day-to-day operations. His experience includes proactive environmental compliance assessments across industries and strong representation in environmental sanctioning proceedings before regional and national authorities. Additionally, he has worked as in-house counsel for top companies driving the development and construction of photovoltaic parks in the country.

Studies:

- Postgraduate Degree in Company Law, Pontificia Universidad Javeriana
- Law, Universidad del Rosario

He speaks Spanish and English.
