- Mining
- Oil and Gas

Profile

Alberto Ventura is a solicitor specialising in environmental law, with a focus on advising companies in the mining, energy, agricultural, industrial, port and general infrastructure sectors.

Studies:

- Master in Territorial Planning and Environmental Management, University of Barcelona (2020–2022).
- Postgraduate in Environmental Impact Assessment and Water Resources Policies, Institute for Water Education – UNESCO-IHE (2015).
- Lawyer, Pontificia Universidad Católica del Perú (2012).

He speaks Spanish and English.

Experience

Alberto has extensive experience in obtaining licences, authorisations and permits from various government bodies, as well as in the drafting, assessment and approval of environmental management and cultural heritage instruments. He has supported his clients through environmental compliance audits and is renowned for his track record in providing legal defence and representation for companies in administrative penalty proceedings relating to environmental matters.

Academic and Publishing Collaborations

He participates as a teacher and speaker at various academic events.

Profesional Organisations

- International Bar Association (IBA).
- Callao Bar Association (CAC).

Awards and recognitions

- Chambers Latin America 2027, Environment
- Legal 500 Latin America 2026, Environment.
