Profile

Alvaro Mendivil has been the Manager of Pérez-Llorca's Legal Tech and Digital Transformation department since 2025.

He has more than seven years of experience in projects related to process automation, data analytics, data governance and artificial intelligence governance. His technical background enables him to integrate scalable solutions that optimise operations and support data-driven decision making. His structured and results-oriented approach ensures compliance with quality, safety and ethical standards in the use of advanced technologies.

Studies:

- 2023 Master's degree in Project Management (PMP), Universidad Nacional de Educación a Distancia (UNIR), Madrid
- 2023 Executive Master's degree in Big Data, Cloud and Analytics, MBIT School, Madrid
- 2020 Data Engineer, Google, Madrid
- 2018 Higher Degree in Multiplatform Applications Development, Colegio Retamar, Madrid

He speaks Spanish and English.

Experience

His career focuses on defining and developing technologies to transform the legal practice.

Prior to joining Pérez-Llorca, he developed his career in different technology firms, where he participated in data, process redesign and improvement projects, as well as in the creation of technological solutions adapted to the needs of different clients. In addition, he led the AI offices in national and international companies.
